# **BROKERS AWAITING** JAMESTOWN SPEECH

Utterance of President Roosevelt Discussed by Wall Street Contingent.

STOCK TRADING IS SCANT

Market Sensitive to Shifting Crop Reports and Much Uncertainty Is Felt.

NEW YORK, April 24.—The scanty dealings in stocks today were heavily congested in two or three individual securities, and the idle drift of prices securities, and the idle drift of prices in the general list seemed to be making more than a sympathetic response to the movements of this select few, which were upwards at first and then downwards. It was not apparent that any general conditions found reflection in the day's dealings, beyond the repressive influence on any speculative venture of the quite general uncertainty felt in the financial world overthe future course of affairs. As an important factor in determining this future is recognized to be the outcome of the year's crops, the stock market shows some sensitiveness to the shifting crop reports, especially from the shows some sensitiveness to the shifting crop reports, especially from the wheat crop. Day to day news on this subject is regarded as inclusive in the determination of the final success or fallure of the crop, but the admitted existence of unfavorable conditions and the late season for the wheat crop adds to the general feeling of uncertainty over the whole business future. For the most part, the day's influences were confined to special movements. Very large individual transactions in Union Pacific left opinion divided as to whether operations intended vided as to whether operations intender

vided as to whether operations intended to further accumulation or distribu-tion were going on. The gossip con-cerning the stock was of a very favor-nble showing of net earnings for March soon to be forthcoming, and of a ru-mored new company to take over holdmored new company to take over holdings of stocks in subsidiary companies, with a distribution of stock in the holding company to be made to Unton Pacific stockholders in the form of a bonus. The supposed complexion of the President's speech, to be made at the opening of the Jamestown Exposition, was much discussed; but withthe opening of the Jamestown Expo-sition, was much discussed; but with-out any great countenance for sugges-tions of a possible sensational charac-ter address. The late break in Brook-lyn Transit followed the report of the passing of a bill in the lower house at Albany to compel five-cent fares to Coney Island. The weakness at the closing was in sympathy with this movement.

Bonds were firm, but dull. Total sales, par value, \$1,829,000. United States bonds were unchanged on call. Total sales stocks, 759,000 shares.

NEW YORK, April 24.—Money on call easy; 2@2½ per cent.; ruling rate, 2; closing bid, 2; offered at 2½. Time loans dull and easy; sixty days, 3½@4 per cent., and ninety days, 4½@4½ per cent. Six months, 4½@5 per cent. Prime mercantile paper, 5½@6 per cent. Sterling exchange easier, with actual business in bankers' bills at \$4.8814@\$4.8350 for demand, and at \$4.8345@\$4.8350 for sixty day bills. Posted rates, \$4.83½@\$4.84 and \$4.861½ \$6\$4.87. Commercial bills, \$4.81½@\$4.834. Bar silver, 65½. Mexican dolinrs, 50½.

map were followed by a prediction for colder weather in the western belt to-morrow, and the market steadied up before midday to a net advance of about 2@5 points. This was followed by a set-back of 3 or 4 points owing to the eastern belt forecast calling for clear and warmer weather, but seliers were rendered uneasy by the relatives firmness of the near months, and in the late trading the market ruled quite firm, reaching the highest point of the session and selling just about the high figures of last Saturday on reports that May tenders would be promptly stopped next Friday. The close was within a point or two of the best. Port receipts for the day were under estimates, and were slightly exceeded by the exports, which will total about 7, 120 000 bales so far for the season against 5,21,000 for the corresponding period last year. Southern spot markets were generally steady and unchanged.

Receipts at the ports to-day were 9,743 bales against 20,314 last week and 11,555 last year. For the week (estimated) 75,000 bales against 83,195 last week and 81,544 last year. To-day's receipts at New Orleans 3,055 bales against 4,223 last year, and at Houston 2,530 bales against 1,333 last year.

# ON THE LOCAL MARKETS

ACTIVE BUSINESS ON PRODUCE MARKET.

Business on the Cary Street block, where the wholesale produce dealers and the commission merchants do business, was fairly active yesterday. The receipts of country produce were large enough to meet the active demand, but no larger. Early vegetables from Florida and South Carolina were in sufficient receipt to meet the demand, and prices remained firm at former quotations.

Fowls were more plentiful than they have been, and prices sagged a little, Spring thickens are now getting down within reason, and good broilers can be had in cooplets and in the feathers at from twenty-four to thrity-two cents per pound, Eggs are not altogether as plentiful as they have been, and the figures were a little up yesterday, fresh laid eggs from nearby points being readily taken at seventeen cents in crate lots.

SCARCE AND NO SALES.
There were no sales of loose leaf tobacco at the warehouses yesterday, for the simple reason that there was no leaf tobacco worth mentioning on the market for sale. It is true that a few wasons loaded with the weed were in the warehouses, and a few packages came in by rail, but all of them put together would not have made a good sized break, and therefore the warehousemen decided to abandon sales for the day and hold over for larger breaks this morning.

ing.
The indications are that semething like 50,000 pounds of good sun-cured stock will be put out this morning. The sales will run as follows: Pirst at Shelburnes, escond at Stonewall, third at Shekke, and fourth at Crenshawki.
